Fireworks Display Policy

Florida Statute Chapter 791 governs the sale and use of fireworks, defines fireworks, and defines items that are not fireworks that can be legally sold to consumers without a permit. "Fireworks" as defined in Chapter 791 cannot be sold in Florida and will not be permitted in Arbor Trace. This policy includes excerpts from Chapter 791 to illustrate items that cannot be sold and used at any time and items that can be sold and used at any time in Arbor Trace.

In general, under Florida law Chapter 791.01(4)(b) and (c), only novelty-type items are legal for consumer usage and anything that flies into the air or explodes is illegal.

Fireworks that cannot be sold legally in Florida and cannot be used in Arbor Trace are defined in Chapter 791.01 (4)(a) as follows:

791.01 Definitions

(4)(a)"Fireworks" means and includes any combustible or explosive composition or substance or combination of substances or, except as hereinafter provided, any article prepared for the purpose of producing a visible or audible effect by combustion, explosion, deflagration, or detonation. The term includes blank cartridges and toy cannons in which explosives are used, the type of balloons which require fire underneath to propel them, firecrackers, torpedoes, skyrockets, roman candles, dago bombs, and any fireworks containing any explosives or flammable compound or any tablets or other device containing any explosive substance.

Items that are legal for sale and can be used in Arbor Trace include the following:

(b)"Fireworks" does not include sparklers approved by the division pursuant to s. 791.013; toy pistols, toy canes, toy guns, or other devices in which paper caps containing twenty-five hundredths grains or less of explosive compound are used, providing they are so constructed that the hand cannot come in contact with the cap when in place for the explosion; and toy pistol paper caps which contain less than twenty hundredths grains of explosive mixture, the sale and use of which shall be permitted at all times.

(c)"Fireworks" also does not include the following novelties and trick noisemakers:

1.A snake or glow worm, which is a pressed pellet of not more than 10 grams of pyrotechnic composition that produces a large, snakelike ash which expands in length as the pellet burns and that does not contain mercuric thiocyanate.

2.A smoke device, which is a tube or sphere containing not more than 10 grams of pyrotechnic composition that, upon burning, produces white or colored smoke as the primary effect.

3.A trick noisemaker, which is a device that produces a small report intended to surprise the user and which includes:

a.A party popper, which is a small plastic or paper device containing not more than 16 milligrams of explosive composition that is friction sensitive, which is ignited by pulling a string protruding from the device, and which expels a paper streamer and produces a small report.

b.A booby trap, which is a small tube with a string protruding from both ends containing not more than 16 milligrams of explosive compound, which is ignited by pulling the ends of the string, and which produces a small report.

c.A snapper, which is a small, paper-wrapped device containing not more than four milligrams of explosive composition coated on small bits of sand, and which, when dropped, explodes, producing a small report. A snapper may not contain more than 250 milligrams of total sand and explosive composition.

d.A trick match, which is a kitchen or book match which is coated with not more than 16 milligrams of explosive or pyrotechnic composition and which, upon ignition, produces a small report or shower of sparks.

e.A cigarette load, which is a small wooden peg that has been coated with not more than 16 milligrams of explosive composition and which produces, upon ignition of a cigarette containing one of the pegs, a small report.

f.An auto burglar alarm, which is a tube which contains not more than 10 grams of pyrotechnic composition that produces a loud whistle or smoke when ignited and which is ignited by use of a squib. A small quantity of explosive, not exceeding 50 milligrams, may also be used to produce a small report.

The sale and use of items listed in this paragraph are permitted at all times.
